

DATA MATURITY ASSESSMENT

Purpose

Combining quantitative assessments with stakeholder conversations, this catalyst kit locates your position along the data maturity continuum and reveals the way forward through a customized road map, an action plan, and best practice resources.

Key Components

- Data Maturity Assessment
- Key Informant Interviews
- Customized Data Practices Audit
- Localized Stakeholder Data Use Survey
- Data Literacy Quiz

■ Required ■ Optional

A Good Choice If...

Your stakeholders value the effectiveness of data but recognize that you must level up your data strategy and practices to achieve a data-driven culture. You are ready to apply data in order to solve problems and want to identify barriers and gaps that hold you back. You recognize that good data leads to good decisions and you want a plan that provides you with strategies and tools to get your data working for you.
